Boojam's Wild Adventure

GAME OVERVIEW:

Christmas time is the happiest time, right? Not for Boojam Wilcocks, who has been tasked to fulfill all his 13 family members Christmas wishes. Boojam was given a list by his mother and the necessary amount of money to buy all the gifts. Boojam takes the bus to the mall and gets dropped off and gets ready to buy the items. Each item is for a specific family member and Boojam is expected to get the items for his family for Christmas by entering specific stores and finding each specific item. There will be ways to fail the game such as entering the women's rest room, shoplifting, and buying an item not on the list since you can only afford what is on the list and nothing else. Boojam has let his family down before and refuses to do so again.
